Coal, Coffee, and Cooperation: Saving a Vanishing Songbird

This talk will explore the relationship between the Cerulean Warbler, a tiny migratory songbird, and the threats to its survival due to mountaintop removal coal mining, deforestation, and climate change. Katie Fallon, author of the new book *Cerulean Blues: A Personal Search for a Vanishing Songbird*, will highlight the connections between a morning cup of coffee and an ecologically devastating mining practice. She will show how the fate of a creature weighing less than an ounce is vitally linked to our own.
