The Healthiest Forest: What Science Says About Old Growth and Why It Matters for Birds – Dr. Joan Maloof

During this talk, Dr. Joan Maloof will discuss how forests of different ages support different bird species – and why it is critical that we preserve some forests in their natural condition so they can support the full structural characteristics needed by forest dwelling bird species. Maloof will also discuss the condition of the earth's forests and what we can do to save habitat for all species. Books will be available for sale and signing. Come enjoy this time to talk together about trees and birds. (Photo by Nicholas A. Tonelli).

Joan Maloof is a PhD ecologist, an author of four books, and the founder of the Old-Growth Forest Network.
